RE: New Decra Roof Installation

1417 Lilac Dr. Denver City, TX

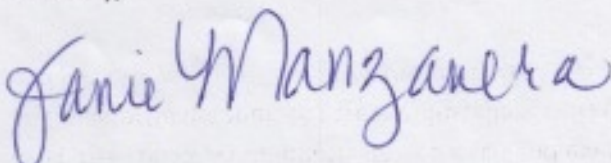

To Whom It May Concern:

I would like to take this opportunity to thank Legacy Construction & Roofing, and especially Joseph Ramirez for the exceptional service and unmatched roofing expertise we received after our home suffered significant hail damage located in Denver City, TX. From the initial consultation, Mr. Ramirez told us he would work directly with our insurance company to be sure all the damages were addressed properly and personally met with our insurance adjuster to review the scope of work. He kept us aware of the claim process from the beginning to end and truly made the entire process extremely smooth and easy. His approach was very professional and courteous and was able to secure us a fair and adequate settlement with our insurance provider.

Once the construction phase started each and every detail of our roof was executed in a professional and masterful manner. His crew of installers worked extremely hard and diligently every day of work and left our yard spotless after the roof was finished...no nails, no screws, and no mess what so ever. Not only that, I'm amazed how quickly the entire roof was done it only took 3 days from start to finish on a 4000 Sq/ft home. WOW! I think I have the best looking roof in the neighborhood now and so do many others judging by all the knocks on the door and phone calls I have received to find out which roofing company did our roof. My husband and I are extremely pleased and cannot thank you enough for such a great experience and the BEAUTIFUL roof.

I would highly recommend Legacy Construction & Roofing to anyone needing any type of roofing or construction services. What a Top Notch company!

Sincerely,

Janie Manzanera
